

## I-70 Glenwood Canyon sign replacement project to start October 19

### PROJECT OVERVIEW

The Colorado Department of Transportation and contract partner Work Zone Traffic Control will begin a sign project on I-70 in Garfield and Eagle Counties. The project will take place from Mile Point 118, just east of Glenwood Springs, and will continue for 13 miles through the canyon to MP 131.

Work will include the removal of worn out signs, installation of 300 new signs and installation of 160 new posts. New signs will be installed at approximately 300 locations along I-70, on four on/off ramps and at rest areas within the project limits. The new regulatory, warning and guidance signs will have better reflectivity at night to help motorists navigate the highway safely.

### PROJECT SCHEDULE

Work is scheduled to begin on October 19 with a winter shutdown from November 2020 until March 2021. The anticipated completion date is April 2021. Hours of operation are 7 a.m. to 7 p.m., Monday through Friday.

### TRAVEL IMPACTS

- Motorists can plan for east and westbound shoulder closures, single lane closures and reduced speed.
